

## THE EVENING BULLETIN

TUESDAY, JULY 7, 1885.

An undoubted case of yellow fever has appeared at New Orleans.

The friends of the Speaker Carlisle expect to see him in Washington this week.

GENERAL BLACK has decided to dismiss between fifty and sixty special examiners of the Pension office; another cut down of expenses.

CHOLERA is raging fearfully at Aranjuez, Spain, wiping out whole families in a day, with 118 new cases and 48 deaths Sunday forenoon.

CONTINUOUS cold rains have prevailed in Eastern Kansas and Western Missouri for the past week. Grain has been damaged to a serious extent.

The temperance men claim to control 102 of the 137 counties of Georgia, but have decided that it would be unwise for the present to nominate a State ticket.

The total deaths from cholera in Spain now number over 9,000, nearly half of which have occurred during the past seven days. The death rate continues to be four in nine.

Or the thirty-eight States twenty-three have Democratic Governors and fifteen Republican executives. Of the Legislatures eighteen are Democratic and nineteen Republican, Illinois in doubt.

The military encampment at Philadelphia is considered a failure and will result in a loss of not less than \$50,000. No companies were present from Philadelphia and very few from any of the Northern States.

PROFESSOR JOHN R. PROCTOR, State Geologist, speaking of the immigration bureau of his department says that an average of three thousand good citizens are coming into Kentucky every year. They are mainly from Germany and Switzerland.

The Republicans of Greenup, Boyd, Lawrence and Elliott counties have nominated Major J. D. Burchett as their candidate for State Senator. At the same time and place the Republicans of Boyd and Lawrence counties nominated H. H. Gamble for Representative.

At Morehead, last week, Jet Bowling, John Trumbo, Boone Day, Robert Messer, James Oxley, Nicholas Day, Craig Tolliver and H. M. Keaton were arrested by A. J. McKenzie, the newly appointed Sheriff. The examining trial of the four first named was called but continued until this week. Other arrests will be made immediately.

The point made against Mr. Kelley is that his appointment is uncomplimentary to the Austrian Government after its rejection by Italy, but Mr. Kasson was rejected by the Spanish Government and afterward received by Austria and subsequently at Berlin and if Mr. Kelley is not received by Austria this government will not be represented at Vienna.

By the middle of July every iron and steel mill in Pittsburg, Pa., and vicinity, with one exception, will be using natural gas as fuel. This will reduce the consumption of coal there 38,250,000 bushels per annum, one-seventh of the yearly output of the region tributary to Pittsburg. It will also throw out of employment thousands of firemen, coal-heavers and ash-haulers employed in the mills.

### A Turf Challenge.

[Macon (Ga.) Telegraph and Messenger.] Dick Tenbrook, the great sportman, who ran Lexington in his race against time, is still in the flesh, and appears to be in better shape than ever. He is an American to win a race with his horse on the English turf. He now challenges all England to run a horse or horses against time for £2,000 a side for one horse, £1,500 each for two horses, £300 each for four or more horses, the receipts to be taken 2 minutes and 15 seconds. Just that time is to be a draw; less, the horse wins, and more time wins.

It is possible that England may have some race horses, but with thorough training and under good conditions could win Mr. Tenbrook's money, but four miles races have gone out of fashion and his challenge is not likely to be accepted. The English are in breeding horses to be ridden, and the cars will be beaten at the same time speed wins.

They contend that speed really covers bottom, that a fast, strong horse can always set the pace to suit himself. All the English racing seasons dashes, and most of them save steeples-cover as much as three miles. America has adopted the English style of racing and it has become popular, and in time will doubtless give our horses more size and stamina, so that they will be able to run faster than the English draft and carriage uses. But Mr. Tenbrook's challenge, we hope, may induce some of the British crack horses to take a turn over here. An American horse can run faster than an English horse.

Mr. Lorillard and Mr. Keene have already won honors on the British turf. Racing has grown into such proportions in the North and West that purses ought to be increased. Let us hope to see a series of English horses to try a series of races with the American horses, that seem to be doing better than ever during the present season. A mile and a half dash at Sheepshead Bay, between St. Gatien and Joe Cotton, would draw a greater crowd by far than Bartholdi.

### GENERAL NOYES.

How it Feels to be Struck with Demographic Disease.

CINCINNATI, July 7.—Gen. Edward F. Noyes was found in his normal condition at his office, gray faced and smoking.

"Well general," remarked a reporter, "it appears that some some of the Democratic leaders are getting fat."

"Why, so it seems, and I never felt it. I don't know anything about it, more than the papers tell me."

"Well, who made the connection; who connected the lighting?"

"There were no petitions, no nothing?"

"There was nothing of that sort; see the report of the Committee of the House."

"Well, what is the nature of the office?"

"I know that only in a general way. The Union Pacific did receive a revenue from the Union Pacific, and it is in the duty of the directors, I presume, to see that the government gets its own."

"What is the compensation?"

"That I don't know. I think there is none, unless you consider the trip to the Pacific coast, and a board meeting at the government's expense in New York."

"Some of your men are going to see you and the administration."

"Oh, yes, Sir. Some of those strong

Tidbit sheets won't forgive me for the part I took in the election of Hayes. But this is not considered a political appointment. It was my own, I believe, to select from among the various prominent members of such boards. You may be sure the majority will be Democratic."

"Yes, but your appointment is very official."

"To be sure it is. The result of the election was very objectionable to the Sun, and all those who took part in securing the honest result in Florida for Mr. Hayes are objectionable. And now I furnish a sufficient account for them to attack Cleveland. I don't expect anything else. Of course they'll do it."

### A FENCE LINE.

Bloody Encountered With Knives Resulting Fatally to Three.

DALTON, Ga., July 7.—News has just been received from Union county of a bloody encounter which has resulted in the death of three men.

The Hunter and Cole families disputed over a fence line last summer, and a combat ensued which resulted adversely to the Cole.

The latter started shooting with rifles. The Hunters returned fire, and the eighth shot was fatal.

One of the Cole's was mortally wounded and the fourth fled. The Hunter died upon the field in self-defense and will meet their trial.

### THE CONDESSA L.

Fresh, Fifty New Items Bailed Down for the Married Reader.

MacKee, July 7.—It is to have a new pipeline.

A big and successful raid was made on Chicago gamblers.

Big Boot is dead. He was on his way home having been starved out.

One of the militiamen on duty at Morehead, Ky., got twenty lashes for shaving during encampment.

Cholera is raging fearfully at Aranjuez, Spain, wiping out whole families in a day, with 118 new cases and 48 deaths.

A two-year-old child was killed by a street car at Toledo, O., and the driver, Adolf Richter, is held for manslaughter.

At Martinsburg, O., Charles Challenger was shot by Gage Braizer, Frazier gave him a bullet up, and claimed that he shot on self-defense.

Collision of two Pan Handle freight, near Columbus, O., derailed and smashed eight cars and caused \$3,000 damages. No woman was injured.

At Curtis, near Somersett, Ky., Ben Heron shot and killed Mike Blair, and seriously wounded John Denver. Whisky fight over a woman.

These are five applicants for the position of bank examiner for Ohio, three of whom are known to the treasury department to be defrauded.

Prof. Habrton, of the Y. M. C. A., and Frank J. White, a well-known Buffalo business man, were drowned on Lake Erie, while

they were swimming.

Collision of two Pan Handle freight, near Columbus, O., derailed and smashed eight cars and caused \$3,000 damages. No woman was injured.

## THE EVENING BULLETIN

**ROSSER & McCARTHY,**  
Publishers and Proprietors,  
To Whom Address All Communications

TUESDAY, JULY 7, 1885.

ONCE again, please make a note,  
And tell it everywhere,  
That Young America, this year,  
Is going to hold a fair.  
And start up go down in your clothes,  
And do it every day,  
And find the necessary wealth  
To help the boys pull through.

It is predicted that July will be the hottest month for forty years past.

The gas company will hereafter supply gas to private consumers at \$2 a thousand feet.

The Colored State Teachers' Association was in session at Lexington on Monday.

The watermelon crop this year is looking unusually well and the thought will not be later than usual.

S. S. KING's lumber yard at Lexington was burned, on Saturday, by incendiaries. The loss was \$15,000.

The rain here, yesterday afternoon, while not as much as was needed, will be of great benefit to vegetation.

A BRICK gutter is to be laid on Second street in front of the business houses of George Cox & Son and N. Cooper.

MARION TOLLIVER'S house, at Farmers, Rowan County, was burned on Friday, presumably by the Humphrey faction.

T. J. HANCOCK, for breach of the peace on the Fourth was fined \$11 in the Mayor's Court yesterday.

MAYSVILLE is well supplied with vegetables and fruit, and everything considered the prices are as reasonable as could be desired.

The improvements at the new post office are now completed. It is one of the handsomest rooms in the city and a very neatly arranged and convenient office.

THE bars are appearing in the riverand navigation is getting to be troublesome. Unless there are heavy rains in the next week the sidewheel packets will have to go to the bank.

THE ladies will find at Mr. Hermann Lange's an assortment of the latest style of solid silver jewelry, which is now very popular. They are invited to call and see the assortment.

PROPERTY in Chester is looking up. Good building lots now command a round price and are in demand. The town has improved very much in the past year and is still on the up grade.

THE Maysville Cotton Mills stopped work last Friday for the purpose of making some needed repairs to the machinery. New boilers are to be put in and other improvements made.

THE contest for the Deputy Revenue Collectorship at Paris, lies between Alex. Keller and Kelly Elliott either of whom would fill the office acceptably. General Robinson will, probably, make the appointment this week.

If you have not already made up your mind to help fill up the premium list of the new fair company there is yet time to do it. The fair to be a success, must have the full co-operation of the people. Make up your mind to be liberal toward this important enterprise.

MR. JOHN GRAY has provided himself with a new mail wagon which will make trips from this place to the Blue Lick Springs on Tuesday, Thursday and Saturday of each week, leaving Maysville every morning and arriving at the springs at 2 o'clock in the afternoon.

THREE boys named respectively James Brittingham, Byron Shriver and Robert Frather, sustained serious injuries at Manchester on the Fourth. They were leading a small cannon when another boy came up with a lighted firecracker which ignited a quantity of powder, burning the faces and hands of the boys very seriously.

THE members of Hunt's Reed and Brass Band announce a fete at the grounds on Fourth street, on Friday and Saturday evenings. There will be good music for dancing and refreshments of all kinds. No objectionable characters will be allowed on the grounds and the best of order will be maintained. Everybody is invited.

THE State Teachers' Association, at Lexington, adjourned *sine die* on Saturday. The selection of the time and place of the next year's meeting was left to the executive committee. The place will be either Cynthiaburg, Louisville or Paducah, and the time the month of July. The following are the new officers: President, Colonel R. D. Allen; Vice President at Large, Professor Glenn; Secretary, Colonel Ed. Porter Thompson.

### Blue Under the Eyes.

There is no beauty in that leaden hue which appears in a deep streak under the eyes, indicating disordered digestion and dismal debility. Ladies who carry with them this evidence of suffering should at once take Brown's Iron Bitters—the sovereign remedy for feminine weakness and impoverished blood. Mr. J. N. Bradford, of Huntsville, Texas, says: "My wife is in delicate health and greatly debilitated. Brown's Iron Bitters relieved her."

THOMAS CAHILL, a young man about twenty-four years of age, and of unusual mind, has been missing from his home in Chester since last Saturday evening. It was noticed that he was in a high state of excitement all day Saturday on account of the noise made in celebrating the Fourth, and the care considered necessary was given him, but he succeeded in eluding the watchfulness of his friends and got away, it is supposed, into the hills back of the city. A thorough search has been made for him, but thus far without success. The father, Mr. Murty Cahill, will be very thankful to any person who will send him information as to the whereabouts of his son.

### PERSONALS.

Mrs. O. H. P. Thomas is visiting friends at Carlisle.

Mr. A. T. Cox has returned from Escalpa Springs.

Mr. Ernie White, who has been very ill, is better to-day.

Mrs. Lewis and Miss Sophia Hutchison are visiting friends at Lexington.

Miss Mattie Green, of Augusta, is visiting the family of Judge W. P. Coons.

Mr. William Holmes, of Georgetown, Ohio, is visiting his relatives in this city.

Mr. Charles Nesbitt, of Owingsville, is visiting his brother, Mr. T. Y. Nesbitt, at East Maysville.

Mr. James H. Rogers, who is now at Escalpa Springs, we are glad to hear, is improving in health.

Mrs. Aljie and Sallie Daugherty, returned home yesterday, from a pleasant visit to friends at Shannon.

Mr. M. G. Hutchins, who has resumed the practice of the law, has his office on Third street, in the building formerly occupied by him.

Captain Sam Pennywitt, of the Natchez and Bayou San packet Prince is visiting his home in Cincinnati. He intends visiting Wheeling to look for a large boat to take the place of the Prince.

### Hayne Female Seminary.

After spending a week in looking over the school and comparing it with the cities of Marion and Indianapolis, the commissioners under whose direction it was founded determined to devote his energies and means to the establishment of a first-class female educational institution in the city of Maysville. His management and control of this institution is our purpose to emphasize and bring into special prominence the following peculiarities:

1st. The cultivation of the heart as well as the mind, improvement of their moral and manners as given to the improvement of their minds.

2d. A sacred regard for the religious convictions of our pupils. It is our purpose to make the school a home and a refuge for the institution positively and strongly in their religion in their tendency. But it will be strictly non-denominational in its character.

Parents and guardians may be assured that, in order to the success and comfort of our pupils in life, it is quite as important they should be ladies as that they should be scholars, and the same attention will be paid to the improvement of their morals and manners as is given to the improvement of their minds.

3d. A sacred regard for the religious convictions of our pupils. It is our purpose to make the school a home and a refuge for the institution positively and strongly in their religion in their tendency. But it will be strictly non-denominational in its character.

4th. The development of the physical constitution and the care of the health.

In our judgment it is impossible to overestimate the importance of these points in the education of the young when the physical system is yet immature and before it is so easy by inattention or neglect to make life short or to render it miserable.

In order that our pupils may have both physical and mental exercise we have purchased the spacious and elegant grounds on the southwest corner of Fourth and Market streets, known as the Wurts property. The buildings will be erected to be comfortable with every reference to security and comfort of their inmates. In addition to this catatholic excuse for the fullest development of the physical constitution of the pupils will form a feature of the school.

5th. A complete education. It is our purpose to give an education equal both in extent and thoroughness to that of the best institutions of the country. In order to this end we will employ experienced teachers in all the branches of a general education in the Normal schools of the country. During the present week we will open our schoolroom for a general education in the Normal schools of the country. The culture and wealth of Maysville and vicinity are worthy of an institution that will be equal to the best and it is this we propose to furnish.

As our purposes and plans have been so recently matured it will take a little time to arrange the details. We can only do this at present and hope to have it all completed by the first Monday in September.

The rates will be as moderate as those of any other school of the same class in the country. During the present week we will open our schoolroom for a general education in the Normal schools of the country. The culture and wealth of Maysville and vicinity are worthy of an institution that will be equal to the best and it is this we propose to furnish.

As our purposes and plans have been so recently matured it will take a little time to arrange the details. We can only do this at present and hope to have it all completed by the first Monday in September.

The rates will be as moderate as those of any other school of the same class in the country. During the present week we will open our schoolroom for a general education in the Normal schools of the country. The culture and wealth of Maysville and vicinity are worthy of an institution that will be equal to the best and it is this we propose to furnish.

### COUNTY POINTS.

#### STATE.

Will Gaunt sold his buggy horse, "John Parker" for \$15, at Flemington.

Miss Nannie Burrows, of Maysville, is visiting Judge John C. Nance.

Judge John C. Nance and his relatives are relatives in DeSoto Valley last week.

Will Gaunt bought a four-year-old Billy, a C. C. Cole bought a sorrel gelding of Dr. Livings for \$15. He calls him "Peter Dick."

Samuel Bangham, the famous gunsmith of the Seven Hills, has returned to Shamokin, and is silversmithing "Claryana" accompanied by his interesting sister, Miss Alice.

Colonel Thomas W. Wheatley is spending a few weeks at the La Rue, Blue Lick Springs. When his uncle is absent he plays the role of host to the many visitors.

The revival services at the Christian Church among the visitors from other points are noticed. Mrs. West and Morrison, of Cincinnati, are staying at the Hotel Chandler. Mrs. D. I. Isham, Misses Mary and Anna Phillips, Mrs. Frank Oliver, and Mrs. K. Swartz, of Robertson.

## THE STRIKERS STUCK.

THE MEN IN CLEVELAND AND CHICAGO WISH THEY WERE BACK.

The Red Flag of Communism at the Head of the Forest City Procession—The Octopus Unmolested—Another Run Made in Chicago—Labor Notes.

CHICAGO, July 7.—A fresh attempt was made to start the cars running on the tracks of the West Division railway. A start was made at 7 o'clock on the Randolph street line, contrary to the expectation of the strikers, who had two engines and two locomotives and fifty deputy sheriffs accompanied the train of ten cars. One of the latter body exercised his lung power by shouting patronage, but with little success. The trip was made without incident, the heavy rain serving to prevent the crowd from congregating.

No fares were collected from the few who took the ride, and the strikers were so satisfied with the experiment resulted in nothing decisive.

The strikers claim the company cannot run its cars without protection of the police.

It is believed that the forces will be greater than ever when found the company does not intend to compromise, and only enough kept on the streets to prevent any serious outbreaks.

Four cars started from the yard on Van Buren street, four on Lake street, two on Randolph. No cars had yet been started on Madison, the lack of men being stated to be the chief reason. Two trips have been made on Randolph street. The cars were run a block and half apart, and police protection was maintained. The police crowded the cars, and fares were taken. Trouble is anticipated, and as soon as the cars are left unguarded by police it is thought conductors and drivers will be severely dealt with and the cars dumped in the ditch before the police can prevent it. Thus far no disorder has been reported.

In Cleveland.

CLEVELAND, July 7.—Three thousand striking mill men met in "Peach Orchard" hall. They listened to speeches by several of the most prominent citizens of the city, before voting them to join the Knights of Labor, and the American Association. A committee was appointed to consider the matter. One enthusiastic speaker advised them to make the flag emblem of communism. This action was done, and all was now marching through the principal streets with a flag at the head of the procession.

There was considerable talk about breaking open the gates of the Standard Oil works and compelling the oil workers to strike. Upon being convinced that \$1.35 per day was the lowest wages paid by that company, the strikers concluded to let well enough alone and not molest the Standard employees. Standard, who have been receiving \$1.50 per day at the blast furnace, had given the strike.

The procession is now heading toward the mayor's office, and a call upon that official will be made.

BIG SUIT.

The Bell Telephone Company in the Courts at Pittsburgh.

PITTSBURG, July 7.—Probably one of the most important cases ever heard in any court was opened in the United States Circuit Court here today by the suit of the Bell Telephone company to hold the monopoly of the Bell Telephone privileges in the United States. The array of counsel is something formidable, embracing, in addition to prominent local talent several of the leading patent lawyers of the United States.

There are also present some of the leading capitalists of New York, New Orleans, and Boston, and other cities of the country. Two large tables, covered with every description of electrical apparatus, associated with the progress of the telephone occupied a conspicuous position. J. J. Storow, of Boston, opened the Bell company's case. He said he would be able to show conclusively that the defendant's claims have already been disposed of in prior suits; that the company did not lay claim to any particular feature, but to the privilege of using the name of that of transmitting speech successfully by electricity. He then cited already numerous decisions in favor of the Bell company.

ATTACKING A WILL.

David Dickson Leaves the Bulk of His Estate to His illegitimate Child.

Sparta, Ga., July 7.—Great interest is exhibited by the will of late David Dickson, the farmer millionaire who died leaving all of his property, excepting a small pittance, to Amanda Eubanks, a negro. The wife and mother of the deceased are scattered through Georgia, New York and Texas, profuse to attack the dead man's sanity.

Both sides have employed able counsel. The will is to be probated, when it is expected a strong fight will be made. An intimate friend of the deceased, Mrs. Amanda Eubanks, the beneficiary, is the result of an early indiscretion of Mr. Dickson with one of his slaves. It is not known whether the wife or the birth of this child Dickson took to ready his will, and declared that it took a man of grit to take care of his offspring when faced by society and prejudice. In the will the lawyers are directed not only to see that its provisions are carried out, but to see that it is out that the woman is protected in all her rights as a citizen wherever she may choose to live.

INVESTIGATING A TORPEDO.

One Hamilton Boy Badly Injured, and Another Killed.

HAMILTON, O., July 7.—Two little boys, Joe Gersprang and John Beck, while playing along the hydrants, found a railroad torpedo, and when young Gersprang was attempting to handle it exploded. His left wrist was badly cut and three fingers were partly blown from his right hand. His head was cut open three inches in length and to the bone. Young Beck escaped uninjured.

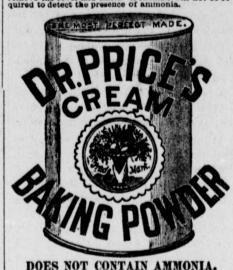

Otto Frederick, aged 13, of Liberty town ship, was thrown under the wheels of a wagon while attempting to check a runaway team, and so injured that he died in a few hours.

COL. WILLIAMS DEAD.

Waukesha, Man., July 7.—Col. Jackson, at Waukesha, received a telegram from Salsbury, stating that Col. Williams, of the Midland Battalion, was dead. Col. Williams was a member of the house of commons and a government whip.

## TEST YOUR BAKING POWDER TO-DAY!

Brands advertised as absolutely pure  
CONTAIN AMMONIA.  
THE TEST:  
Place a sat. spoonful on a hot surface until heated, then remove the cover and the smell will not be detected.

DOES NOT CONTAIN AMMONIA.  
ITS HEALTHFULNESS HAS NEVER BEEN QUESTIONED.

In a million homes for a quarter of a century it has won the consumers' reliable test.
